--End--

### **About Eastern Pretech Group**

Eastern Pretech (EP) Group is Singapore's leading industry player in delivering innovative solutions for precast concrete and prefabricated bathroom units (PBU).

Incorporated since 1982, EP is the market leader with the benefit of its long operating history and successful track record of delivering quality products and superior services. The Group has 6 strategic manufacturing facilities in Malaysia, United Arab Emirates and Finland.

Its well-established reputation in being able to provide premium quality products and value-added design services has enabled it to be recognised as the “Precaster of Choice”, especially for fast track, large-scale precast projects with a high level of technical design know-how. Over the years, the Group has cemented strong relationships with property developers, architects, engineers, designers and contractors.

EP Group’s proven industry track record is backed by sound corporate business philosophy of Singapore’s SGX-listed NSL Ltd. NSL and its group of companies is a leading industrial group in Asia Pacific. Listed on the SGX since 1964, NSL has operations and joint-ventures in 8 countries.
